Rosemary Crocker

2nd Grade Teacher

What do you teach at James L. Collins Catholic School and how long have you been teaching here?

I have been on the campus at James L. Collins Catholic School since 1997. Over the years I have taught various grades and classes including middle school math, religion, English, and social studies. I also served as the campus minister. This year I am back to teaching the second grade.

What college did you attend and what degree do you hold? Specializations?

I graduated from Stephen F. Austin and received my Bachelor of Arts in Interdisciplinary Studies with the specialization in math.

What motivates you each morning when you come to work?

My favorite part of the day is to see the lightbulbs in my students turn on. I believe it is one of the most incredible moments of my day to see the students being challenged and succeed. I have a passion for teaching. I love teaching because I get to help her students grow and gain confidence. I love to assist my students in their realization of their talents and gifts from God.

Do you advise any extracurricular activities at the our school (including coaching)? If so, what? And why do you enjoy that activity?

Throughout my time at JLCCS I have worked with hundreds of students and advised various student groups. I have served as the adviser for National Junior Honor Society, coached the cheerleaders, hosted student retreats, and coordinated altar server training. Currently I am a volunteer with the school's parent teacher committee (PTC).

What is your favorite aspect about teaching at a Christian school?

As an alumni of James L. Collins Catholic School, I feel that through the exceptional foundation I received, I am able to give back the gift that were given to me. I feel truly blessed to celebrate life with the entire school family and join together in prayer as a school.
